Dear Hiring Manager,

Thank you for the opportunity to apply for the **XXX engineering position** at **XXX company**. I firmly believe that my experience with mechanical and electrical systems in the Aerospace and Defense industry makes me a suitable candidate for this position. Ultimately, I want to contribute to **XXX company's** efforts to contribute in providing national security to the country and upholding civilian safety. (Assuming that you are applying for aerospace & defense)

Starting off my career as an innovation and test engineer, I've successfully completed many projects that demonstrate my skillset in test engineering, developing and defining optimal manufacturing processes, and facilitate the installation of many electrical and mechanical assemblies. Through my experiences, I have developed a great understanding of optimal machining and manufacturing methods for applications in the Aerospace and Defense industry.

As an avid learner, I am always searching for opportunities to improve many processes and practices and be a part of the emergence of newer technologies within the industry. I believe that my background provides me with the skillset and knowledge to successfully contribute to **XXX company's** efforts in the production of products that promote national security.

Thank you for your consideration.

Best regards,
